

# Individual – Worldwide

Silent Gliss premiered the first quiet curtain system in the world in 1952. Today Silent Gliss is the world's leading company for internal window treatment solutions in the high-end segment.

Quality is the common denominator of our product range. Only materials that satisfy the highest requirements concerning durability, stability and precision are used. A five year guarantee is taken for granted.

Whether used for shading, for privacy, as a room divider or for decorative purposes, all Silent Gliss systems are made to measure and will be manufactured individually according to your needs.

Ask your Silent Gliss retailer and be inspired by our range of internal window treatment solutions.

# The Silent Gliss range

## Classic Curtains

Silent Gliss invented the perfect wave. Wave and Wave XL are reviving the classic curtain.

## Sliding Panels / Folding Panels

Whether classic or folded – this flexible and decorative curtain system always looks great, especially for large, floor-to-ceiling windows.

## Roman Blind Systems

Roman blinds combine the simplicity of blinds with the warmth and versatility of soft furnishing fabrics.

## Vertical Blinds

With the three exclusive Vertical Wave designs Silent Gliss offers extraordinary variations of this practical system.

## Roller Blind Systems

Thanks to the design and workmanship the Silent Gliss roller blinds wind up perfectly straight and in a smooth controlled manner, even the larger systems.

## Skylight and Winter Garden Systems

Silent Gliss skylight systems help reduce heat (solar gain), light and glare whilst enhancing privacy.

## Pleated Blind Systems

For specialised windows the pleated blind systems offer the perfect solution. Whether hung from the bottom up, round, triangular and/or sloping.

## Venetian Blinds

The precise operation of Venetian blinds enables perfect control of the light. The comprehensive colour range makes them suitable for any surroundings.

## Motorised Operation

Automation is increasing in popularity, especially in the home environment, whether for comfort, the desire for efficiency or just pleasure.

All Silent Gliss window treatments have a motorised option.

Quiet and discreet. Silent Gliss motors meet the highest specifications.

With a variety of wall switches and modern remote controls, Silent Gliss offers a great solution for every need. In addition, our window treatments are compatible with most home control systems.

## The Silent Gliss Fabric Collection

The perfect curtain system: a result of the interplay of sophisticated technique and high-quality textiles. All Silent Gliss fabrics are tested extensively in respect of their hanging attributes within the various systems. Profit from this advantage and let our range of materials, patterns, cuts and colours from the fabric collection inspire you.

More information about the collection is to be found at your Silent Gliss retailer or at [www.silentgliss.co.uk](http://www.silentgliss.co.uk)
